

HP Compaq t5725 Thin Client

Powerful, flexible, easy—Innovative!

HP helps you gain a competitive edge with the proven business technology, reliability, and great price-performance ratio of the HP Compaq t5725 Thin Client. Give your workers the processing power they need for a great server-based computing experience, whether running general office applications or your specific line of business software.

Experience the power and flexibility of open source technology with HP

- Address the unique solutions important to your business with the HP Compaq t5725's highly extensible Debian Linux distribution. Easily add software from the many open source applications available on the Internet.

Customize functionality for your specific environment

- Recover desktop space by conveniently mounting the client on a wall or swing arm, under a desk or shelf, behind a display or monitor stand, or even bundled with another compliant device—all using the optional HP Quick Release.
- Maximize functionality with the optional PCI Expansion Module, which lets you install a wide range of devices.
- Take advantage of ample local storage for drivers and applications.

Manage and protect your investment

- Simply and more securely manage thin clients and all your network PCs with the enterprise management features of Altiris Deployment Solution, featuring automated functions such as initial deployment, scheduled software updates, full image updates, and BIOS configuration.
- Quickly capture and deploy "master images" with the new HP ThinState Capture and HP ThinState Deploy technology.
- Protect your critical user data and applications with lockable user settings, local storage that can be disabled, and optional user authentication with smart cards.

Get global piece of mind

HP is a global leader in thin client sales, successfully deploying thousands of solutions and providing a single source for servers, monitors, peripherals, and services.

The HP Compaq t5725 Thin Client is backed by HP Global Service and Support through our network of 50,000 IT professionals in over 100 countries.

Hardware Features Overview

Processor	AMD Geode NX 1500
System Memory	256 MB ¹
Flash Memory	512 MB
Video	<ul style="list-style-type: none"> SiS741 CX Integrated/UMA graphics with 16 MB shared graphics memory Maximum video resolution is 1600x1200, 24 bit @ 85 Hz
USB Ports	Six USB 2.0 ports (2 front/4 rear)
Serial/Parallel Ports	One serial port One parallel port
PS/2 Ports	Two PS/2 ports
Audio	<ul style="list-style-type: none"> Internal amplified speaker: 1/8-inch mini output, full 16-bit stereo, 44 KHz sample rate Line in: 1/8-inch mini microphone
Networking	<ul style="list-style-type: none"> TCP/IP with DNS and DHCP support 10/100 BaseT Fast Ethernet, twisted pair (RJ-45) Point-to-Point Protocol (PPP), Direct Connection through RS-232 Wake on LAN PXE
Smartcard Support	<ul style="list-style-type: none"> Support for HP USB Smartcard Keyboard (ED707AA) available as an add-on Third-party USB smart card readers supported (See QuickSpecs for more information.)
Warranty	<ul style="list-style-type: none"> Limited 3-year hardware warranty
Operating Environment	
Temperature Range On	50° to 104° F (10° to 40° C) 50° to 95° F (10° to 35° C) when using the Quick Release with a flat panel monitor or PCI expande
Temperature Range Off	-22° to 140° F (-30° to 60° C)
Humidity	20% to 80% condensing 10% to 95% non-condensing
Power	Worldwide, auto-sensing 100-240 VAC, 50-60 Hz energy-saving automatic power-down, surge-tolerant, 40W power supply

¹ 16 MB of system RAM is reserved for video graphics usage
